

QURANIC GEMS

Allah loves...

By

Shaykh Dr. Moiz Hasan Db

اِنَّ اللّٰهَ يَحِبُّ الْمُطَهِّرِيْنَ

ALLAH LOVES THOSE WHO PURIFY THEMSELVES

Types of Purification

1. Outward cleanliness
2. Inward cleanliness

If both are achieved, then outwardly we are humanly but inwardly we can reach the rank of angels.

We all desire cleanliness and for Muslims specially it reaches the pinnacle because Allah loves those who purify themselves.

Outward Cleanliness

Outward cleanliness is removing the physical impurities.

1. Taking bath regularly
 2. Using Fragrance (very light for women): Even though Beloved Prophet's ﷺ sweat was fragrant in itself, He still used to put on fragrance so that He could teach the Ummah.
 3. Wudhu : This is the quickest way to bring us closer to Allah ﷻ

Benefits of Wudhu

There is a lot of importance in maintaining the state of wudhu.

1. Protection from the wasaawas of shaitan
 2. Inclination to sin will be less
 3. Suppresses the anger
 4. Wudhu is a weapon of a believer, ie for protecting the inward.
 5. Protection and Help of Allah
 6. Protects our salah
 7. Removes sins

Benefits of Wudhu

Shaitan and nafs are our real enemy. Their domination is so much that we cannot fight on our own. Hence one effective weapon against them is to be in the state of wudhu.

If we want to get the oneness in our inward, to be consistent in our relation with Allah ﷻ then we should try getting this in our life ie. to be in the state of wudhu all the time.

Benefits of Wudhu

Whoever makes wudhu in the proper way, all their minor sins are getting forgiven.

Wudhu is not just splashing water but it has a lot of meaning. If we do it with proper awareness, then it uplifts us spiritually.

And if we make intention, that we are seeking forgiveness not only for our minor sins but also for our major sins, then in sha Allah, Allah will forgive our major sins too.

One amal that brings us closer to Allah, more rewarding in the sight of Allah, is the wudhu of winter.

Benefits of Wudhu

If a person sleeps in the state of wudhu and if he/she dies in his/her sleep that person gets the rank of a martyr. This is such a big Virtue.

Also when a person sleeps in the state of wudhu, Allah ﷻ appoints an angel for this person, to seek forgiveness on his or her behalf.

Sahaba asked Beloved Prophet ﷺ how He ﷻ will recognize who is His ummati on the day of judgement, the Beloved Prophet ﷺ replied He ﷻ will recognize us through the effects of wudhu i.e. illumination and noor of wudhu on our body

Practically how to maintain wudhu all the time

1. **Look at the food we eat:** If some food constantly invalidates our wudhu then we can consume it less.
 2. **To make dua :** For every good deed, we need to make dua to Allah for the taufeeq and for ease.

Inward Purification

We should purify our soul from

1. Pride
2. Ostentations
3. Envy
4. Transgression against Allah
5. All blameworthy attributes

Substitute them with

1. Humility
2. Modesty
3. Sincerity
4. Generosity
5. Thinking well about other
6. All the praiseworthy attributes

Inward Purification

Whoever becomes for Allah, Allah becomes for that person

The real obstacles in our relation with Allah are these impurities. Whether outward or inward.

Allah is pure and Allah accepts only purity.

If Allah is Pure and if we want to connect to Him, we cannot ever connect with our impurities.

All sins are impurities. We need to purify ourselves.

We can fool people when it comes to our relationship with them.

But Allah knows everything about us.

ان الله يحب المطهّرين

How to achieve inward purity practically

By finishing even the intention of the sin

Like making intention that “I will not sin with my eye”, “I will not backbite anyone”, “I will not lie”. Shaitan deceives us by not letting us make this intention even.

We think that we can keep on sinning and still get Allah. This is not possible.

ALLAH LOVES THOSE WHO PURIFY THEMSELVES

How to achieve inward purity practically

By finishing even the intention of the sin

Our work is to make this intention of keeping away from sinning, but if we still fall in the sin, Allah will forgive us because we are at least trying.

Allah knows Shaitan and nafs are stopping us, but still we want to keep trying, this is what Allah loves.

Allah need sincerity.

• We just need to take this step to let Allah know that we want to become the beloved of Allah ﷻ

• and Want to purify ourselves to become the beloved of Allah ﷻ
